

AWAKENING FROM THE DREAM

An 8-part series based on the principles of
**A Course In Miracles and
The Disappearance Of The Universe.**

BEGINS THURSDAY, OCTOBER 19, 2006 7:00 - 9:15 P.M.

What if some of the assumptions we simply take for granted were not quite as we thought?

The Disappearance Of The Universe, published only three years ago, contains profound and surprising insights that challenge religious & scientific conventions, as well as most New Age beliefs. Funny and irreverent, it provides a radical perspective on reality.

It also clarifies the holographic nature of **A Course In Miracles**, making the richness and depth of its message more accessible.

Some of the issues covered:

- why the ego loves shock
- why everything we make eventually falls apart!
- is the universe really evolving & expanding?
- how unconscious guilt plays itself out in our daily lives, and why it got there
- understanding forgiveness from an entirely different perspective
- how to emerge from the dream at a pace that is right for each one of us
- what caused the Big Bang
- how healing actually occurs
- where do we really go when we die

Thursday, Oct. 19

The Prodigal Son and The Making of the Dream

Why the Illusion Seems so Real: Clues All Around Us

Becoming Fearless: The Undoing of the Ego

Enlightened Forgiveness: Miracles Begin to Appear

The Decision To Heal: All Will be Added Unto You

Time: For Where the Beginning Is, the End Shall Be

Abundant Living: Freedom From Scarcity

Choose Once Again: Claiming Your Inheritance

Our time together will emphasize the practical application of these teachings, so that we can move beyond our self-imposed obstacles and remember the Oneness that we truly are. We will also share centering techniques, gentle movement, breathing, toning and meditation. The course will include handouts and simple exercises to deepen your experience.
